- N/A - All above 3 - n/a - No change necessary - I responded with a 2 to the question asking about time spent outside of class working on the course, and I responded with a 2 because Mr. Eaton explained each topic well and broke up the material well so that it was easy to keep the workload not as heavy as other classes while still efficiently teaching the material.

- Prof Eaton does a great job of communicating with his students and ensures that everybody understands the concepts we are going over during class. He makes the concepts easy to understand through his teaching and always offers help to those who need it.
- Matt does a very good job explaining concepts. From what I have heard, our class seemed to be much easier to succeed in than other microeconomics classes, while still maintaining a consistent pace. I would recommend Matt to anyone taking a microeconomics class.
- Eaton is a great teacher to a sleepy 8am class.
- I love his teaching style. He explains every piece of content to a great extent. Taking his course has benefited me when understanding real world concepts especially as a business major.
- The teacher was very helpful whenever asking questions. And he took good notes.
- I enjoyed the in-class examples that were used because I felt that they helped me better understand the material that was being taught. I also thought the weekly quizzes/worksheets were helpful in retaining the information and they were good opportunities to improve our grade. Additionally, the practice exam problems posed were helpful in studying.
- effective communication on the concepts we were to focus on and emphasized how they were all related which helped see things more clearly as its a lot of information and graph interpretations. Worksheets and practice exams definitely helped narrow down what information was more important to understand and test knowledge of understanding.
- Matt never made anything more complicated than it needed to be. He was clear with expectations and understanding with workload.
- By far the best professor I have had so far! He lets us know of any upcoming assignments, quizzes, or tests way ahead of time and gives us a great amount of time to complete things to our best ability. The way he explains concepts and gives examples is very effective because he connects it to real world things that we understand. Any question asked he explains it in such a helpful way that benefits each student tremendously. I am very comfortable asking for help because he is very eager to help each student. He gives us beyond the proper tools to succeed on exams and sets what to expect very early on. This course has made me excited to take Macro and sparked my interest in the field of economics! Great great great professor!
- Professor Eaton likes to bring in real world examples into class, especially ones that relate with students to grasp our attention, His work load is light but it helps tremendously when you take his test you will not be confused but it will all be covered in class.
- I was very satisfied by this course in general. The professor was amazing and he taught the material really well.
- I am a fan of how Prof. Eaton runs his lectures, with his whiteboard style.
- The way everything was described and the way the notes were written on the board were super easy to understand. Also, the practice worksheets were very similar to the exams which helped alot.
- What I liked was that when office hours couldn't be held due to an outside factor, it was communicated ahead of time, as well as clearly stated that he could not meet. Also the assessment practices are very helpful because the mirror what the exam is going to be and if you take time to complete it, it will give a full understanding for the exam and what the exam entails
- The instructor taught very well and clearly explained each concept with examples and real world practice.
- The weekly quizzes always allowed me to brush up on the skills learned in class and applied what we had took notes on during the week. By the time the test came around, I already felt prepared with the majority of material.
- Matt's amazing explanations.
- Matt was very easy going. He was thorough in his teaching and the assignments he did give us were effective. He was overall a great professor.
- Mr. Eaton was extremely organized when it came to our course. He communicated very well with us as students, whether it was a change in course material or due date, he always let us know as soon as possible. He is also a very understanding and compassionate professor, something about the way he teaches just shows that he truly cares about his students and how they do in his class. I had him for an 8:00 am MWF & I never dreaded coming to his class, it is actually the one class that I truly enjoy going to. He also makes the most of our class time, he does move kind of fast, but he always posts the notes before class and it is word for word of what he says during his lectures. Even though he goes kind of fast, he is always very sure to answer any questions that we have.
- Note taking, practice problems, and asking questions
- I responded with a 4/5 on every other question because Mr. Eaton presents the material very well, and he provides a lot of materials to help you understand something you might be shaky on, so it's easy to get back on track without even scheduling a meeting with him, but if you have to meet in person it's also very easy to do that.
- class was good
- I liked how he outlined the objectives before every class

12 - The course helped me develop my analytical skills.
